

## EXTEND I STREET TO SANTOS, ASKS NILES CHAMBER

Extension of I Street in Niles across Alameda Creek to Santos Avenue was suggested at Tuesday's weekly meeting of the Niles Chamber of Commerce, and the Alameda County Board of Supervisors will be contacted to determine if the project is possible.

Need for the street extension was declared to be the great inconvenience and hazard of using the state highway and three underpasses on the present route between Niles and Centerville.

Secretary Vernon Ellsworth reported that Supervisor Chester E. Stanley, replying to a request that the Board of Supervisors acquire a 10-acre site at the entrance to Niles Canyon for a park site, stated that he believed the county-wide flood control and water conservation district now in legislative process in Sacramento would be the proper agency to develop such a park.

Stanley agreed that the historic Vallejo Mill site should be preserved as a park, but said that the county has neither the authority nor the funds to buy land for a park nor to finance its development.

Next Tuesday, according to President John Brahmst, the Southern Alameda County Real Estate Board and the Niles Chamber will hold a joint luncheon meeting at the International Kitchen.

## SCHOLASTIC HONORS FOR LOCAL GIRL

Winifred Dias, daughter of Mr. and Mrs. F. E. Dias of Niles, who will graduate with honors in Education from San Jose State College on June 24, this week was proclaimed the outstanding senior girl in education and scholarship and will be the honoree at a tea given for her by Kappa Delta Pi. Each year the sorority honors a senior girl in such a manner.

The signal honor came without warning to Miss Dias, who is still reeling with the surprise of it all. A graduate of Washington High four years ago, Miss Dias, now that she has completed her college education, has accepted a position as teacher in the Irvington Elementary School, and will assume her new duties in the fall. In the meantime she will take a position with Hunt Brothers in Hayward in the personnel department.

Over a thousand San Jose State seniors will receive their degrees at ceremonies in the Spartan Stadium.

## CHAMBER TO PUSH FOR STEVENS ST.

The street committee of the Centerville Chamber of Commerce will meet with the Alameda County Planning Commission in the near future to explain the necessity of extending Stevens Street across the Southern Pacific tracks to Central Avenue.

The project has been surveyed at Chamber expense and has been before the county for several months. However, no action has been taken as yet by the county, explanation being that the county does not accept unimproved streets to be improved at county expense. The Centerville Chamber asks that departure be made from this precedent.

Fire Chief Fred Rogers reported that several fires have been caused lately by use of improper incinerators and that there have been instances of burning without permits.

He emphasized the need of re-drafting the county fire ordinance in the interest of better fire protection, which has been suggested for several years by rural fire chiefs. Renewed efforts will be made in this direction, he said.

## WORK PROGRESSES ON NEW GRAMMAR SCHOOL AT NEWARK

All flooring and heating equipment has been installed in the new \$144,000 Newark Grammar School building and actual construction of the wall frames got under way this week.

The new structure, containing eight classrooms and a kindergarten room, is expected to be ready for occupancy in late October.

Completion of the new building, however, will not entirely alleviate the crowded condition of the Newark School. Principal Jack MacGregor said that it will be necessary to use two or three classrooms in the old building until such time as additional funds are made available to complete the new building as originally planned. The initial structure is being built to permit the construction of additional classrooms.

When the new building is entirely completed, the present building will be abandoned.

Radiant heat—copper tubing under porous flooring material—has been installed throughout the new building. Pouring of the corridor floors last week completed this phase of the work.

## ENTERS PARADE AT LIVERMORE RODEO

## FINAL RITES FOR MRS. MARY COSTA

The deceased, a native of Warm Springs, was 53 years old. A member of S.P.R.S.I. No. 84, she is survived by the following sons and daughters: Joseph and Manuel Costa of Niles; Mrs. Mary Santos of Santa Cruz; Mrs. Edith Costa of Irvington; Mrs. Rose Rose, Mrs. Norma Perry and August Costa, all of San Jose. She was the sister of Mrs. Annie Maciel of Newark; Mrs. Minnie Souza, Mrs. Rose Brown, Mrs. Florence Brazil, and Manuel, Tony, Joseph and Alvino Vargas, all of Warm Springs.

A mass was held at St. Joseph's Church, with interment at St. Joseph's Cemetery.

## NILES BOY DROWNS IN SWIMMING POOL ON ROSE RANCH

Carefree hours between school and dusk... a summer day... a swimmin' pool... and pollywogs.

An idyllic picture, to be sure, suggestive of the "barefoot boy with cheeks of tan," but it sent tragedy across the threshold of the George Mendozas of Niles, for 7-year-old Paul Mendoza is dead, victim of a partially unsolved drowning accident at the Norman Rose ranch on Morrison Canyon Road.

Paul, a first-grader at Niles Elementary School, went to the ranch with his brother, George Jr., after school on Thursday, June 2. The elder Mendoza is a ranch worker on the place.

The Mendozas returned to the township about a month ago from Madrone and since that time have been living with Mrs. Mendoza's parents near Mission San Jose.

## RODE HOME WITH DAD

It had been the custom of the boys to meet their father at the ranch and ride home with him after work. Paul changed to his play togs in his father's car, then set out to play—alone on this day.

From shortly after 4 o'clock nothing was seen of him. No alarm was felt, however, until about 6 o'clock when the father and George Jr. prepared to go home. Search of the ranch led finally to the Rose's private swimming pool, where Paul's submerged body was found by Gabriel Martinez, a neighbor, about 6:45 p.m. The body apparently had been in the water two or more hours.

A verdict of accidental death—drowning by asphyxiation—was returned yesterday by a coroner's jury, following an inquest held in Niles by Dr. Mark L. Emerson, coroner, at the Berge Mortuary Company.

Testimony at the inquest took an ironic turn when Norman Rose revealed that the private pool, which had claimed Paul's life, had been built to aid their own son, Billy, regain the use of his limbs after an attack of infantile paralysis some years ago.

## WATER IS SHALLOW

It will probably never be known how Paul fell into the pool, which contained only three feet of water at its deepest point. He was fully clothed and had not been swimming. Presumably he fell while trying to catch pollywogs. The body was found in the three-foot depth.

Rose testified that the swimming pool is not in use, due to the shortage of water and that only enough water is kept in the pool to prevent the concrete bottom from cracking. Rose stressed that children always were cautioned to remain away from the pool.

Paul's father took the stand but could throw no light on the accident, and Deputy Sheriff Alfred Martin testified to the routine aspects of the official investigation.

Funeral services for Paul were held last Saturday from the Chapel of the Berge Mortuary here with burial in Hayward cemetery.

Besides his parents, Paul is survived by a sister, Mrs. Clarence Gomes. George Jr. is a member of the graduating class at Niles Elementary School.

## BERNARDO OPTIMISTIC ABOUT COT CROP

### SAYS GROWERS MAY GET \$75.00 PER TON

Apricot growers of Washington Township are doing a lot of guessing on the crop outlook these days as a basis for calculating the price that may be expected for the year's crop.

M. J. Bernardo of Centerville, president of the Alameda County Farm Bureau, was optimistic about the price for the crop, however. When contacted by The Register this week he made a public statement to the orchardists: "Don't become too gloomy by outside reports. There is no carry-over of dried cots by the Association or packers. The prospects for a fair price this year are not too bad."

Bernardo went on to state that he would not be surprised if good cannery cots brought \$75 a ton this year, in contrast to last year's price of \$65. He added, however, that increased irrigation costs, and pruning, tillage, and spray costs would make the harvest cost no less than last year.

## CENTERVILLE GIRL IN QUEEN CONTEST

Her candidacy sponsored by the Washington Eden Farm Center, Elvamae Rose, daughter of Mr. and Mrs. Clarence Rose of Centerville, is expected to make a strong bid for selection as Queen of the Alameda County Fair.

Elvamae is a junior at Washington Union High School and is receiving strong support from a host of backers.

Several other contestants are in the race, the winner of which will be given an airplane trip to Hollywood and a two-day tour of points of interest in the movie capital. The winner will appear also on the coast-to-coast radio show, "Queen for a Day," on June 29.

On the return flight, the queen will bring as her guest the radio "Queen for a Day" and the two will stay at the Old Hearst Ranch, through the four-day period of the Cavalcade extravaganza at the Pleasanton fair as guests of the fair directors.

Carl Hawley of Hollywood will direct the Cavalcade production.

Entries for the queen contest will remain open until June 27, according to Joe M. Rose Jr., chairman of the Alameda County Farm Bureau's queen contest committee.

## REBER SUPPORTERS FORM COMMITTEE TO PUSH PROJECT

Salt water encroachment, the menace and threat to the continued prosperity of agriculture and industry in Southern Alameda County was the discussion at a meeting held by a group of citizens at the Washington Union High School Monday.

M. C. Friel, a director of the San Francisco Bay project, also known as the Reber Plan, was the speaker of the evening. He pointed out the necessity of immediate action to combat the encroachment of salt water not only in Alameda County, but other counties also. No hope for relief can be had from present projects of the federal government for a period of years, he said, and that would be too late to save this section and others. The San Francisco Bay Project could bring about relief in comparatively few years, Friel asserted.

The object of the meeting was to appoint a working committee that would publicize the purpose and benefits of the project as well as to promote interest and support of it among the citizens of Southern Alameda County. E. E. Michael accepted chairmanship of the committee and other members and sub-committees will be named later.

Those attending were W. D. Patterson, Louis Amaral, H. F. Harrold of the Alameda County Water District; Judge Allen G. Norris, L. S. Williams, Franklin Brown, Donald Patterson, L. J. Fine, M. Stevenson, Michael, and Richard Johnson Sr. and Richard Johnson Jr. of Warm Springs.

# 218 Grammar School Graduates Are Listed

Graduation rolls in Washington Township's nine public elementary schools and one parochial institution total 218 boys and girls, and all but one of the commencement ceremonies are scheduled for the coming week.

However, seven proud eighth-graders of Mission San Jose's Elementary School stole the march on their township contemporaries

at a graduation program last night and are now the proud possessors of their hard-earned diplomas.

Two graduation programs are scheduled for Sunday morning—Decoto Grammar School will award diplomas to a record class of 41 students at outdoor exercises, while eight girls will receive their certificates at chapel ceremonies at St. Mary's of the Palms, Mission San Jose.

Other exercises are scheduled for various nights throughout the next week with a complete wind-up of commencement activities next Friday night, June 17.

The complete lists of graduates, brief outlines of the programs, and dates of the events at the various grammar schools follow:

By MARGARET COLE

Now that this ghastly final exam week is over we can settle down to the serious business of getting the Seniors graduated and the rest of us promoted, we feverishly hope. To start the ball rolling, the Seniors will have their assembly at which time the other classes will move to their new sections and the Seniors will sing their farewell song. It's all very impressive and solemn and will bring most of us to the point of tears while those made of sterner stuff will merely shuffle their feet, cough loudly and look as though they wished they could be somewhere else having a good cry.

Undoubtedly most of us envy the graduating class but on the other hand it's a comforting feeling to know that you have one or two more years to wear your mind about what you're going to do once you have your diploma. Some, of course, know very definitely what they want. Our favorite crooner, Mel Lewis, for instance, will enroll in Modesto Junior College and take a course in business management. Laura Medeiros will enroll next fall in the Heald's Business College in San Jose.

That all-around swell girl, Joan Halliwell, is ambitiously planning to go to U. of C. at Berkeley and take up the study of medicine. Manuel Silva is going to work for a teaching degree and, naturally, will major in art.

Dolores Santos is still undecided. She likes the idea of an office job but on the other hand there's the alluring prospect of studying dental practice at San Jose State.

We have no doubts about efficient Ellen Freitas attaining her desired position in the business world. Then there's another group whose members either do not know what they want to do or are keeping it a deep secret. Hand in hand with their apparent unconcern about the future goes an attitude of magnificent assurance expressed by R. E. Miller when he said, "Oh, I'll always have a job on hand." Could be!

In any case, here's loads of good wishes to you all and we'll

all be on hand to watch you wind up in a blaze of glory on Thursday. Congratulations to the valedictorians, Dolly Silveria and Al Durazo. We hear you have excellent speeches prepared.

Congratulations, too, to Don Pine and Betty Jacinto who will leave this next week for Boys' and Girls' State.

# CENTERVILLE ADDS TO SCHOOL STAFF

Miss Nancy Martin, graduate of San Jose State College, has been added to the teaching staff of Centerville Elementary School for the 1949-50 school year, it was announced this week.

She will be assigned to the primary department where increased enrollment has necessitated employment of an additional teacher. Miss Martin has had considerable experience as a leader in summer camps for girls and will assist in the Centerville Girl Scout program.

All other members of the staff plan to return to their posts at the opening of the fall term, members of the board of trustees announced. Trustees of Centerville school are Judge Allen G. Norris, Ernest J. Sabina and Allan E. Walton.

# SCHOOL DANCING PARTY TONIGHT

The smartest homemakers in the world are today's California brides. They step forth from wedding aisles into modern homes where many electric servants help keep house the electrical way.

The bride of today becomes a good cook—automatically. Her coffee and her toast or a complete dinner are done to perfection by thermostat and timer.

Her automatic washing machine swishes clothes white and rinses them clean. Then the dryer tumbles them warm and dry (and what a blessing that is on a foggy or rainy day.)

Her food is preserved in the magical cold of a spacious refrigerator and food bargains are stored in a home freezer.

This is the wonderful age of electrical living...especially here in California where electricity does so much for so little money. Remember this...for wedding gifts this month or any month...choose the ever acceptable electrical appliances.

## FISHING TRIP SUCCESS

Last Saturday six fishermen from here traveled 10 miles away from the Golden Gate to catch fish. The trip was quite a success as Don Martin caught an 18-pound salmon, Kenneth Moore from Warm Springs a 16-pound salmon, and John Torquemada and Gallo Gonzalez each a 13-pound cod. Also on the trip were Clifford Sapita and Dickie Martin from Hayward. Dickie was quite unfortunate to become seasick. Oh, the life of a sailor, eh, Dick?

Among all the other foods was a 20-pound birthday cake. Chef Al Rodriguez was complimented on his fine cooking. Hmm! Folk dancing, playing cards and games were included in the evening's recreation. Efficient methods of poultry management as practiced at the Kimber Poultry Breeding Farm will be carried to China by S. F. Chang of Nanking, a research fellow of the Chinese mass education movement, who arrived in Niles this week for a two months' period of observation, work and study under Kimber experts.

Chang has been in the United States since January 24 and came to Niles from the University of California's College of Agriculture at Davis, where he studied for several months. He is on a travel fellowship of the Rosenberg Foundation—the first ever awarded to a Chinese student. He is here under the direct auspices of the James Yen California Committee. James Yen is head of the Chinese mass education movement.

Chang, 38, is a graduate of the agricultural college of Nanking University, where he received his bachelor of science degree in general agriculture in 1935. He is director of the agricultural experiment station at Ting Hsien, China, which is operated in conjunction with the Chinese rural reconstruction program. Prior to the Japanese invasion of China, Chang studied agronomy in Japan and Korea. He has splendid command of the English language.

## THE YOUNGER SET

KAREN LYNN JACKSON

Karen Lynn Jackson, who was two years old on May 31, is a little girl with a big experience ahead of her. For tomorrow (Saturday) she will leave with her mother and daddy, Mr. and Mrs. Thomas Jackson Jr. of Niles, for a few weeks visit to Bessemer City, North Carolina. Not only will it be the first time she will have traveled on a train (a first time, too, for her mother!) but she will also be seeing her paternal grandparents, Mr. and Mrs. Thomas Jackson Sr., for the first time.

Karen will doubtless attract a lot of attention on the train, the "City of San Francisco," for she

is one of the busiest little ladies you ever saw. She is known as the kind who "gets into everything." Her mother is planning to take along Karen's favorite story-book, however, which, next to her uncle's dog "Pudgy," is her favorite love. In addition to "reading" stories, she also likes to sing, and knows several airs.

In view of their close association with the little girl ever since her birth, it is not surprising that her maternal grandparents, Mr. and Mrs. George Burr of Niles, will see her off on the trip with more than a trace of regret, and will likely find Niles a pretty dull place until her return.

diplomas. Members of the graduating class are:

LeRoy Brown, Johnny Chacon, George Cole, Jimmy Foley, Moy Hernandez, Donald Harris, Wilbert Martin, Gilbert Silva, Paul Stewart, Herbert Untiedt, Eddie Valles, Julian Bassurto, Rex Smith, Jerry Talbert, Shirley Chandler, Joanne Cale, Florida Lewis.

There will be 13 graduates at the Alviso District Elementary School and they will be awarded their diplomas at 8 p.m. next Thursday, June 14. The presentation of diplomas will be made by Frank Faria Jr., clerk of the board of trustees.

Vaughn D. Seidel, county superintendent of schools, will deliver the commencement address. Orchestra selections and a two-act play, "Never a Dull Moment," will highlight the program.

Members of the graduating class are:

Richard Andrade, Anita Bailey, Jimmie Bettencourt, Howard Bigbey, Piero Cerruti, Michael Logan, Walter Luiz, Shirley Mello, Kenneth Mello, Frank Murakami, Ann Grete Pederson, Jerry Pimentel and Wynemia Sudbury.

### Woman Returns to U.S. After 29 Years

Miss Maria Pauline Costa, who left her native California for the Madeira Islands of Portugal when she was only 10 years old, returned last week after 29 years. She is presently staying with relatives, the Marceline Rogers, in Irvington.

Born in Morgan Hill, the young woman assumed most of the customs of the Islands when she went over there with her parents, but she retained her knowledge of the English language by keeping up her correspondence with her relatives in this country. She comes back to this country accomplished in the fine embroidery art for which the Islands of Madeira have become famous.

Arriving here by plane on May 31, she is astonished at the modern conveniences of America. Our washing machines, television sets, and luxurious cars are amazing to her.

Now that her parents are both dead, she plans to make her permanent home in California.

### At Recital

Mrs. Joseph Champion of Niles journeyed down to San Jose last Sunday to hear her ten-year-old grandson, Victor Wykoff, play the piano in a recital. Victor is the son of Mr. and Mrs. V. C. Wykoff (Clarice Champion).

AMONG THE WEDDING GUESTS at the Doris Alameda-Jordan Boyd Crowe nuptials last Sunday was District Attorney Frank Coakley, who is shown felicitating the bride, who has been a secretary in his office for several years. The happy bridegroom, and the bride's parents, are looking on. The picture was taken at the reception which followed the beautiful garden wedding that was attended by over 200 guests.

### DORIS ALAMEDA, JORDAN BOYD CROWE REPEAT VOWS AT LARGE GARDEN WEDDING

Blue skies, a summer sun, and an improvised altar banked with a myriad of white delphinium, white stock, snapdragons, and Es-ther Reed daisies, served as a perfect background for the outdoor wedding last Sunday of Doris Alameda and Jordan Boyd Crowe, when they exchanged wedding vows at the home of the bride's parents, Mr. and Mrs. A. E. Alameda of Irvington, in the presence of over 200 guests. The Rev. Donald Kirkbride officiated at the ceremony.

The bride was attired in a gown fashioned with high neck and cape sleeves, with full skirt of tulle over Chantilly lace. A slight train was caught with a bustle effect in the back. She wore a Juliette cap of seed pearls and a shoulder length veil. Her bouquet was of calla lilies.

The bride's sister, Shirley, maid of honor, wore a yellow organdy print, fashioned with tight bodice and bouffant skirt.

She wore a picture hat and carried a bouquet of orchid carnations, caught with yellow streamers.

Mrs. Robert Bushnell and Mrs. Robert Kithcart, the two other attendants, were in similar frocks, but with reverse color combinations. Their bouquets were of yellow carnations, with orchid streamers.

The little flower girl, Andrea Gronley, wore a costume duplicating that of the maid of honor.

Mrs. Alameda was in a navy blue taffeta and lace afternoon dress with matching hat of Milan straw. Her corsage was pink roses.

The bridegroom's mother, Mrs. Horace Harrison, wore a green and white crepe, with white accessories. An orchid corsage completed her costume.

Robert Bushnell did best man honors and the ushers were the bride's four brothers, Melford, Irving, Stanley and Harold. Young Gary Sargent of Alameda was the ring-bearer.

Lorrain McClain, vocalist, sang two selections: "Because" and "The Lord's Prayer." She was accompanied at the organ by Mrs. Dwight Thornburg. Dwight Thornburg played the wedding march and incidental background music. The beautiful flower arrangements throughout the home and the

garden were done by Mrs. Fleecie Gomes, assisted by Mr. and Mrs. William Rose. The long table, which was set before a big picture window looking out towards the garden, was covered with an exquisite hand-embroidered cloth. On it were placed the cake, white tapers, and floral arrangements.

The happy bridal pair, after receiving their many friends, left for a honeymoon in Tahoe. Upon their return, they will live in Oakland.

## BOOK ON CONSERVATION HAS POWERFUL IMPACT ON DECOTO DISCUSSION GROUP

For the survival of mankind, the Johnson led the discussion. She has been interested in the subject of conservation for some time and the questions she presented to the group covered every phase of this most impressive book.

Mr. Lee Benson, agricultural advisor of Alameda County, was a special guest. While he did not thoroughly agree with some of the views as laid down by Mr. Johnson, he did agree that a conservation program of world-wide scope should be inaugurated immediately; that our land cannot be saved until the people are educated.

Mr. Benson spoke of the work being done by his office. How new and improved methods of farming are constantly being introduced to produce a greater yield of produce per acre.

Mrs. Florence Wallace played hostess to the group and was highly complimented on the delicious luncheon served at noon.

On July 14, the group will meet at the home of Mrs. Johnson. Mrs. William Zaddow will be the leader and has chosen the popular "Cheaper by the Dozen" by Frank B. Gilbreth Jr. and Ernestine Gilbreth Carey.

## GREETINGS!

Well, here I am again, you lucky ??? people. I hope you have missed me for I missed writing my column every Tuesday or Wednesday, but I have been on a vacation, if you can call it such. Been right here in town as busy as a bee helping to get the new "garage" in shape to live in. It really isn't a garage but started to be one and after we were requested to move from our old stamping grounds we got busy and made it into a nice comfy two-bedroom home. So it has been a mad scramble to get it at least livable and now that we have slowed down a bit I will try and be with you every week if V. and V. still have the job open for me. Last Sunday the family, Tom and Ruth, Diane and Michael of Burlingame, and Bud and Colleen and Cynthia Gail of El Cerrito spent the week-end helping with the painting and many other things. Thanks to Danny, Daniel and David, Jack and other wonderful friends who lent a hand when we needed them. We are now at home to our friends across the street from Linda Vista Park where we intend to stay for many a day.

**A FOURSOME**  
To make their foursome complete, little Miss Janeen Marie Telles arrived at the Hayward Hospital on May 31 and weighed 7 pounds and 15 ounces. Her mother and daddy are Estelle and Claire Telles of Centerville and the Mission. She has a brother, Claire Jr., who will make her life a lively one.

**DINNER PARTY**  
The Mothers Club of Mission San Jose acted as hostesses to the eighth grade class of the Mission Grammar School at a dinner party at the International Kitchen on Tuesday evening where they had a wonderful dinner. Mrs. Della King, our former retired teacher, was a guest of honor. Besides the mothers, Mr. and Mrs. Click and Mrs. Hazel Millard, also two of our teachers and Mothers Club members, attended. Some of the eighth graders could not come but those present were Reno DeBernardo, John Walsh, Shirley Cunha,

Nadine Fernandez, Joyce McGowan and Kay, one of our new Japanese girls and I do not know her name. Later some of the group went to the Baptist home for an evening of fun and singing.

## At the LIBRARY

By ELAINE HOWE

Vacation time is approaching rapidly and many of you may be contemplating a trip to one of the national parks of which there are so many here in the west. A valuable aid to planning of routes and what to see enroute is "Let's Visit Our National Parks" by Byron Steel.

For each of the thirty odd parks you will find the following information: season, admission charge, approaches and routes, accommodations—which includes hotels, lodges and trailer sites, restaurants, description and sights and activities such as horseback riding, fishing and boating as available. Some rates are given and large maps clearly indicate routes from either coast to the parks.

Another aid in planning your trip is "Exploring Our National Parks" by Devereux Butcher. As secretary of the National Parks Association, his material has been verified by superintendents of the various parks. This is by no means as detailed as the first book mentioned, but it is full of gorgeous photographs of the scenic wonders and the flora and fauna of our national parks and monuments. This would be fun to sit down with again after you had made your trip.

Then just to whet your appetite for a trip somewhere—anywhere—this summer, we have assembled (on the prompting of your editors) a collection of pamphlets of various parks, playgrounds and scenic spots which you may borrow and study at your leisure. The Parks Service has sent us bulletins on all the parks from Acadia in Maine, westward to include, among others, Glacier in Montana, Platt in Oklahoma, Crater Lake in Oregon, Carlsbad Caverns in New Mexico, and even Hawaii on the islands of Maui and Hawaii. Also we have rail and airline folders with gorgeous pictures of our western wonderlands in enticing full colors. Personally I can bare-

Coroner Mark L. Emerson presided over an inquest in Niles yesterday at the Berge Mortuary Company. Testimony indicated Ross had driven his coupe across the white line in the path of the tank truck driven by Cauthan.

## NILES RADIO CITY TO CHANGE HANDS

Russ Hamm of San Jose is taking over Radio City, 733 Main Street, Niles, from Bernie Rasmussen, who will leave soon with Mrs. Rasmussen for Myer's Flat in Humboldt County where he will enter the electric and plumbing field.

Rasmussen has lived in Niles and operated the radio shop for the past 14 months and during that period has made many friends locally.

He has contemplated the change for some time and recently rented a store building in Myer's Flat and is building a new home there.

## HARRY HOUSTON BACK FROM CAMP

Harry Houston of Sears and Houston, Newark, returned this week from Fort Lewis, Wash., after his annual two weeks' tour of duty as a captain in the Army Engineers reserve.

During World War II, Houston served with the engineers as an enlisted man through the Aleutians campaign, returned to the states and was sent to Officers Candidate School. After receiving his commission, he was sent to the European theater and served through the remainder of operations there as an officer.

ly resist padlocking the library and setting out today!

Not that I intend to do that just now. However, with the imminent end of school and all the fascinating outdoor activities to engross the children, the Story-Teller, too, craves a holiday. Tomorrow, June 11, will be the last Children's Story Hour until fall. When school commences again, I'll be back on the job.

## Annual Meeting of The First Church of Christ, Scientist, Boston, Mass., June 6, 1949

BOSTON, Mass., June 6—Breaking through the crust of ancient beliefs in material power, the postwar world is reaching out in an unprecedented effort for something better upon which to found a union of nations, The Christian Science Board of Directors declared today.

Addressing several thousand Christian Scientists attending the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, the Directors viewed with satisfaction the worldwide stir in human consciousness to discard the material for the spiritual.

Physicians, they said, are giving more importance to thought in relation to disease. Natural scientists, they added, are gaining in their recognition of the insubstantiality of matter.

Religious leaders everywhere, they pointed out, have developed a widespread sense of the need and reasonableness of greater and more direct evidences of spiritual power.

In various other directions, the Directors continued, there is a strong urge to look beyond mere human means for the establishment of stable government.

The Directors' statement and the election of Miss Emma C. Shipman to the Presidency of The Mother Church for the ensuing year sparked an annual meeting filled with reports of marked progress in the Christian Science movement throughout the globe.

If Mary Baker Eddy, Discoverer and Founder of Christian Science, were here today, according to the new President, "she would see the signs of the growth she most desired"—signs that stem from what Miss Shipman described as "a more steadfast consciousness of the all-power and all-presence of God."

This consciousness was seen by the Directors of the Church as rapidly spreading throughout the postwar world, where "beliefs long accepted are being questioned and discarded as never before."

"Not only the general stir in human consciousness but definite, basic changes of concept in the major fields of science, theology, and medicine" were said by the Directors to have contributed to a growing respect for Christian Science and the spiritual healing for which it stands.

"These are the three measures of men to which Mrs. Eddy referred—science, theology, and medicine—and certainly great changes have been going on in all of them."

"The changes plainly represent a yielding of human thought in some measure to Truth, as revealed by Mrs. Eddy, and they have undoubtedly created in many quarters new and more favorable attitudes toward her teaching."

What is the essential message of these teachings? The Directors

explained this as follows: "It is that the availability of satisfactory government, whether of the body, or for any group of mankind, or for mankind as a whole, is no longer open to question."

"It is that such government does not have to be built up by merely human means, but that it already exists in perfection, and needs only to be understood and exemplified in the thought and conduct of men in order to become, amply evident in their experience."

The Directors added: "It must be plain enough that selfishness is the root of the world's troubles today—selfishness which puts one's own interests, or the interest of one's group or nation, as he conceives them, above the interests of the rest of mankind."

"And it is not strange that thinkers in many fields are recognizing that the remedy for this widespread evil is to be found in those qualities of thought and life which are revealed in Christian Science as the qualities of God, and therefore as spiritually natural qualities of man."

That Mrs. Eddy recognized those qualities, the Directors told the annual meeting, was the reason for her conviction of God's ever-presence and of man's relationship to Him. From that she deduced the "spontaneous and strength" necessary for founding the Christian Science movement.

A report by the Trustees of The Christian Science Publishing Society disclosed new high circulation peaks for most of its periodicals, and the best postwar circulation records for all of them in the fiscal year just ended.

The growing worldwide recognition of the news and editorial quality of The Christian Science Monitor was the source of keen satisfaction to the Trustees. Governments, private industries, educational and private foundations, they said, have sought the counsel and assistance of the Editor and other staff members of the Monitor.

More than 1,500,000 incoming letters were handled in the last year by the Publishing House, it was reported. More than 75,000,000 copies of various publications were said to have been mailed out to various parts of the world.

The Committee on Publication deplored the heavy volume of radio publicity given over to topics of disease, on the argument that this "publicity is one of the most prolific sources of disease."

Fear campaigns "which are repeatedly staged by one influence after another," the Committee commented, "require the constant vigilance of all radio listeners."

On the constructive side of radio broadcasting, The Mother Church was said to have contributed transcribed religious programs heard by a conservatively estimated 10,000,000 people every week. These

programs are used by approximately 450 radio stations.

Other reports by the Clerk of The Mother Church, the Treasurer, The Christian Science Board of Lectureship, and the Trustees of Charitable Institutions covered a wide range of activities in the movement, all of which attested to a general postwar resurgence in religion.

Food, clothing and literature supplies have flowed steadily from The Mother Church to needy Christian Scientists in Europe, the Clerk's report disclosed.

Large quantities of food have been sent to churches and societies in Japan, Hungary, Austria, Germany, Czechoslovakia, Finland, France, Great Britain, Greece, the Netherlands, and Poland, he stated. Similar shipments of clothing have gone to Great Britain, Germany, Norway, the Netherlands, and elsewhere.

Efforts are increasing, the Clerk added, to enable displaced persons in Europe to obtain new homes for themselves in other countries, including the United States, Canada, and England.

## Biographical Sketch, Incoming President, The First Church of Christ, Scientist, Boston, Mass.

Miss Emma C. Shipman, C.S.B., of Brookline, Massachusetts, is a local member of The Mother Church. She became a firm believer in Christian Science when a young girl through the healing of immediate members of her family by two of her aunts who were early pupils of the Discoverer and Founder of Christian Science, Mary Baker Eddy.

Miss Shipman received her schooling in the public schools of Vermont and New Hampshire, in the Johnson, Vermont, Normal School (now Teachers' College), and at the College of Liberal Arts, Boston University. She is a member of the Kappa Kappa Gamma Fraternity.

Miss Shipman joined The Mother Church in 1893, and received Primary class instruction the same year. In January, 1896, she was elected a teacher in The Mother Church Sunday School.

During the summers of 1897-1898, Miss Shipman served as Second Reader and as Secretary and Treasurer for the White Mountain Church, near Fabyans, New Hampshire. On the occasion of its dedication, in August, 1898, she was given the address to read by Mary Baker Eddy, found in The First Church of Christ, Scientist, and Miscellany, pages 184-186.

In November, 1898, Miss Shipman was called to the last class taught by Mrs. Eddy. In March, 1899, she began the public practice of Christian Science, and later began the work of teaching Christian Science. She has served on various committees for The Mother Church and was for several years a member of The Christian Science Bible Lesson Committee. She has also contributed many articles to the Christian Science periodicals. (Paid advertisement)

### RAISE SCHOOL FUNDS

Declared to be one of the most successful benefit affairs given in Washington Township recently, the one-act plays presented by the Mothers Club of the Alviso Elementary School made over \$300. The club has offered to use the money for the school which is contemplating a reduced budget for next term due to defeat of the tax increase proposal at an election held in May. Definite expenditures will be decided at a meeting in September. The 23 women in the cast of the two plays given before a full house at the Washington Union High School, attended a dinner party at Bertoli's Restaurant in Castro Valley to celebrate their successful undertaking, according to Mrs. Lydia Bettencourt, chairman of arrangements. The women ended their evening by attending the Holy Ghost festival in Mission San Jose.

For 16 miles along the Feather River nearly 3000 men are at work as Pacific Gas and Electric Company rushes a huge \$62,000,000 project to develop 270,000 horsepower of electricity from two new powerhouses. Nearing completion is Rock Creek Dam, above, which will divert water into 6 1/2 miles of 25-foot tunnel to serve the new Rock Creek Powerhouse. Another tunnel 4 miles long will carry the water from Cresta Dam to Cresta Powerhouse, also near completion.

### COUNTRY CLUB TO BE RENOVATED

The Washington Township Country Club house in Centerville is about to undergo a face-lifting job—at least on the interior—that will give it a new lease on life. Built in 1914, the club house was completely renovated, with dressing rooms added, in 1928. In the early 1930s, the stage was added. No major alterations have been made since that time.

### NEW KITCHEN

The present renovation, which received the okay of the club members at last Tuesday's meeting, will include a complete modernization of the kitchen, with new linoleum laid, and painting throughout. New floors, also, will be laid in the main room of the building, which will also receive a coat of paint.

### TOWNSHIP PLANS PRODUCE DISPLAY FOR STATE FAIR

Washington Township vegetable growers will exhibit the choice produce of their fields at both the California State Fair at Sacramento and the Alameda County Fair at Pleasanton, Supervisor Chester Stanley announced this week.

Kaz and Chuck Shikano, Centerville brothers, have been named by Stanley to head a committee to arrange for the vegetable display at the State Fair, which will be held September 1 to 11, inclusive.

The same committee will be in charge of produce displays at the county fair June 29 to July 9, inclusive. July 9—the final day of the county exhibit—has been designated as Washington Township Day and an especially large turnout of residents of the region is expected on that occasion.

In addition to vegetables, the county plans a large display of wines and flowers at the state fair, and plans are going forward for a similar exhibit at the forthcoming Los Angeles County Fair at Pomona, Stanley said.

After San Francisco's earthquake and fire in 1906, one insurance company alone paid \$8,291,390 in claims.

The population of North America more than doubled between 1880 and 1940.

### PARK WILL HEAD OAKLAND CHAMBER

William H. Park, division manager of the Pacific Gas and Electric Company and active in civic, Community Chest and fraternal affairs, is the president-elect of the Oakland Chamber of Commerce. He succeeds James H. L'Hommiedieu, vice-president and general manager of the Alameda County-East Bay Title Insurance Company, and will take office July 1.

The president-elect, a native of Modesto, is a past president of the Berkeley Chamber of Commerce and graduated from the University of California with an electrical engineering degree in 1926. During his college days he was a star pitcher with the California Bear nine and an officer of the Sigma Phi Epsilon Fraternity.

Thomas Jefferson conceived the principal upon which certain modern secret codes are based.

of September, with the locale tentatively set for the International Kitchen.

## HUGE P. G. & E. PROJECT NEARING COMPLETION ON FEATHER RIVER

Pacific Gas and Electric Company's huge Feather River power development is nearing completion exactly on a record-setting construction schedule despite the immensity of the \$62,000,000, 2 1/2-year project employing 3,000 men.

First new power is scheduled to pour forth next November from the 101,000-horsepower generators of Cresta powerhouse. Three months later, in February, 1950, the 169,000-horsepower Rock Creek powerhouse is scheduled for operation.

When the two plants are on the line, the company will have added 863,200 horsepower to its generating capacity since V-J Day. Elsewhere on the company's system new plants are under construction which will add more than a million additional horsepower by the end of 1951. P. G. & E. postwar expansion is the world's biggest power-building program, an investment of private capital exceeding \$800,000,000 in concrete, steel, equipment, and payrolls to serve growing California.

Involved in the double-barreled Feather River project are the construction of two dams, two tunnels and the two powerhouses as well as a major highway relocation, erection of transmission lines along precipitous canyon walls, the transportation of heavy supplies and the housing and feeding of construction crews.

For 16 miles through the narrow canyon of the Feather every sizeable space along the highway has been put to use. Trailers, tents and temporary houses of workmen's families line the river bank from roadside to water's edge. Dormitories for single men crowd against the canyon wall. Down in the valley at Oroville and high in the mountains at Quincy the families of other workmen unable to get nearer have rented all available housing.

Trains puff up the gorge bringing carloads of steel, electrical equipment and heavy machinery. Shutling trucks distribute supplies to the scattered sites of the many-phased project.

## NILES MAN IN ADVENTUROUS TRIP NORTH

### WILL MAKE DASH DURING BREAK IN ICE

Chief Warrant Officer Paul Harter, well-known resident of Canyon Heights, Niles, is at present in San Diego assisting in preparations for the sixth and largest annual resupply expedition to Point Barrow in Alaska.

Pacific Fleet Headquarters announced that the eleven vessels comprising the expedition will leave from San Diego about June 20, will load 45,000 tons of cargo at Point Huenueno, San Francisco and Seattle, and leave for Point Barrow in late July, making the dash to the northernmost tip of Alaska during the brief period when a coastal channel opens in the ice pack that fills the Arctic Ocean all the rest of the year. The cargo this year will be land-

ed in less than a week on open beaches, using amphibious techniques developed in World War II. The cargo is larger than that required for two combat divisions.

The expedition, under direct command of Capt. Richard M. Scruggs, will include transports, ice-breakers, attack cargo ships and four LSTs. Chief Harter is assigned to the transport Achernar. Bulk of the supplies will be taken to the Navy's Petroleum Reserve 4, huge Arctic area the Navy is exploring for oil. Other supplies will be delivered to stations maintained in the far north by the Air Force, Coast and Geodetic Survey, Civil Aeronautics Administration, U.S. Weather Bureau, and Office of Indian Affairs.

## THEATER SLATES TELEVISION TESTS

Auditions for aspiring television performers will be held at the Center Theater, Centerville, Sunday, June 12, starting at 9 a.m., under direction of Scotty Weston, Oakland producer, and those who pass preliminary muster will be given further tryouts on the stage of the theater on Thursday evening, June 23.

The winner of the talent parade will appear under Weston's sponsorship at the television tryouts scheduled for the forthcoming Alameda County Fair at Pleasanton. Young performers with singing, dancing or other entertainment talent are invited to enter the auditions.

Well, the Southern Pacific came forth this week with another "No" to the Niles Fire Department's bid for some of the S.P. property on Main Street. They're not asking for it as a gift, mind you, but the S.P. apparently won't part with their half of Main Street for anything—even money which, I guess, doesn't mean much to the S.P.

Only the S.P. will be responsible for Niles going down in the annals of history as the "little town with a lop-sided Main Street."

In the meantime, the firemen are looking for other property for their new fire house. They are open to suggestions.

Improvements in water service for Decoto were outlined to members of that community's Chamber of Commerce by Clifford L. Dennis, Niles manager of the Public Utilities California Corporation, at the organization's regular meeting last Tuesday night.

The new pump in Decoto will soon have an automatic control, Dennis said, and there is a possibility that new 4-inch and 6-inch pipelines will be installed throughout the entire community in the not too distant future.

The chamber decided to communicate with Supervisor Chester E. Stanley about enforcing a 25-mile speed limit on the Decoto Road from the Western Pacific tracks to the Niles-Hayward Highway.

A communication was received from the Centerville Chamber of Commerce thanking the Decoto organization for its support of the establishment of a sheriff's substation in the former community.

Louis J. Fine of the Niles Highway volunteered to be the new scoutmaster, replacing Norman (Pat) Luna, who resigned recently when he moved from Decoto to Newark. As a youth, Fine was an Eagle Scout.

The chamber directors will meet in a few weeks to name a committee to work with Fine in supervising the Scouts' activities.

It was announced at the meeting that Dr. Morgan Lee will soon reside on Third Street and will be available for night calls.

Aurora Gonzales, 3116 Glenn Road, Hayward, received the chamber's endorsement for queen of Fiesta San Leandro, scheduled to be held in that community July 2, 3 and 4.

**BIG CHANGE**  
The biggest change in Scouting for several years took place last week when the National Council changed the age limits. Cub Scouts can now be 8 instead of 9; boys can become regular Scouts at 11 instead of 12; and the age limit for Senior Scouts has been reduced from 15 to 14.

**GOOD JOB**  
The students of Mission San Jose elementary school went all-out on their school year book, or annual, quite aptly named "Mission Highlights." It is one of the most interesting year books I have ever seen. The youngsters deserve a lot of credit for their art work, poetry, composition and make-up of their annual.

To show what they think of their school, we'll print this little poem from the annual, written by Buddy Semas:

**MISSION SCHOOL**  
Winter, Summer, Spring or Fall, Mission is the best school of all. The grades run from first to eight, And Mission baseball team has a lot of faith.

It's the school that I attend, It might not be the biggest school in all the land, But I and everyone think it is just grand.

It's the sentiment that counts! **THE GARLIC CURE**  
Thanks to one of my readers for bringing in this little bit of information taken from the Ladies Home Journal of 50 years ago:

For whitening the hands: "Make a lotion of horse-radish and hot milk."

Also—  
Bicycling advice: "When the hill is so steep that you cannot ascend without opening the mouth, it is far better and wiser to dismount."

Come to think of it, this advice of 50 years ago does not seem as strange as a bit of information I gleaned from a daily newspaper this week concerning men's baldness. The article advised men to try rubbing garlic on their heads to cure and prevent baldness. And this is advice of 1949!

Men who try the garlic-cure for baldness are going to have to lead very, very private lives, I'm afraid. Frankly, I'm saying right now that the garlic in our family is going to still be used only in salads, pot-roasts, and French bread!

**ANOTHER 'NO'**  
Well, the Southern Pacific came forth this week with another "No" to the Niles Fire Department's bid for some of the S.P. property on Main Street. They're not asking for it as a gift, mind you, but the S.P. apparently won't part with their half of Main Street for anything—even money which, I guess, doesn't mean much to the S.P.

Only the S.P. will be responsible for Niles going down in the annals of history as the "little town with a lop-sided Main Street."

In the meantime, the firemen are looking for other property for their new fire house. They are open to suggestions.

Customers in barber shops were once provided with musical entertainment.

Coffee was considered an intoxicating beverage by early Mohammedan priests.
